AIR-board® Acoustic

AIR-board® Acoustic is a sound-absorbing, light-transmitting acoustical design element. It is manufactured with a rigid translucent honeycomb core, translucent polycarbonate facing sheets, and over 300,000 micro-pores per square meter. These lightweight, rigid panels have a transparency of 65% and sound absorption up to 0.70 NRC.

- Exceptional sound absorption
- Lightweight and translucent
- Unlimited applications
- Fast & easy fabrication
- Multiple edging options
- LEED USGBC credits
- Curved panels, custom colors and image transfer available

STANDARD DIMENSIONS

48" x 96" x 3/4" (or 1") (1220mm x 2440mm)
