AIR-board®

Combining a rigid polycarbonate core and facing sheets, AIR-board® is a robust panel with unique optical properties that is ideal for inside or outside use. Durable enough to withstand the harshest weather, AIR-board is lightweight and resistant to UV degradation. It provides thermal insulation, has high bending strength, and is easy to fabricate.

moxie surfaces offers 5 types of AIR-board:

- **AIR-board UV PC** – Transparent UV-protected polycarbonate (PC) facing sheets
- **AIR-board UV PC Color** – Colored, transparent UV-protected PC facing sheets
- **AIR-board UV Satin** – Semi-transparent, slightly textured, colored UV-protected PMMA facing sheets
- **Color-AIR-board UV PC** - Transparent UV-protected PC facing sheets with a color core
- **AIR-board Acoustic** - Transparent PC facing sheets with sound absorption properties

STANDARD DIMENSIONS

118.9" x 39.3" x 3/4" (3020mm x 1000mm x 19mm)

118.9" x 48" x 3/4" (3020mm x 1220mm x 19mm)
